

PIG CREEP FEEDER

- Our rain shield will not leak.
- No interior ledges or gaps to catch and retain stale feed.
- Rain shield extends beyond trough by 6".
- Feed level can be determined through translucent side wall material.
- Heavy duty polyethylene material with hindered amine light stabilizers.
- Adjustable feed opening.
- Heavy duty cover handle and latch.

NEW!

Small ruminant animals can be fed if this feeder is mounted on a heavy plied implement tire (Min. 42" Diameter) to provide proper head clearance under the canopy.
